DECLARATION TO BE MADE BY MAN ON ATTESTATION.

I, Herbert C. Pass, do solemnly declare that the above are answers made by me to the above questions and that they are true, and that I am willing to fulfil the engagements by me now made, and I hereby engage and agree to serve in the Canadian Over-Seas Expeditionary Force, and to be attached to any arm of the service therein, for the term of one year, or during the war now existing between Great Britain and Germany should that war last longer than one year, and for six months after the termination of that war provided His Majesty should so long require my services, or until legally discharged.

Date: Dec 29 1915. Herbert C. Pass (Signature of Recruit)
Geo J. Doney (Signature of Witness)

OATH TO BE TAKEN BY MAN ON ATTESTATION.

I, Herbert C. Pass, do make Oath, that I will be faithful and bear true Allegiance to His Majesty King George the Fifth, His Heirs and Successors, and that I will as in duty bound honestly and faithfully defend His Majesty, His Heirs and Successors, in Person, Crown and Dignity, against all enemies, and will observe and obey all orders of His Majesty, His Heirs and Successors, and of all the Generals and Officers set over me. So help me God.

Date: Dec 29 1915. Herbert C. Pass (Signature of Recruit)
Geo J. Doney (Signature of Witness)

CERTIFICATE OF MAGISTRATE.

The Recruit above-named was cautioned by me that if he made any false answer to any of the above questions he would be liable to be punished as provided in the Army Act.

The above questions were then read to the Recruit in my presence.

I have taken care that he understands each question, and that his answer to each question has been duly entered as replied to, and the said Recruit has made and signed the declaration and taken the oath

before me, at Lindsay this 5th day of January 1916.

Diagnosis

Lesion of left ulnar nerve with involvement
 of scar tissue,
 Some lesion of musculospiral,

X-ray taken of ^{lft} arm - old prominence of humerus.

Opinion - by Col. Starr. Aug 19 1917.

Incision made down inner side of left arm
 extending 5" above elbow and 4" below, muscles divided
 and ulnar nerve exposed above and below the scar
 seems to be some connection through scar tissue, stimulation
 of distal fragment causes no contraction of muscles, the
 nerve below the scar was then dissected out for about 3" below
 the elbow, about one inch of the nerve was cut away
 at the scar and distal section passed beneath
 the flexor muscles of fore arm arm flexed at
 elbow to 60° the ends of the nerve were brought
 together in this way and sutured, This was covered
 with fat and subcutaneous tissue and muscle
 muscles brought together with cat gut and skin
 with horse hair, Plaster cast then applied
 to arm still flexed at the angle mentioned above.

INSTRUCTIONS WHICH MUST BE READ BY MEDICAL OFFICERS

- In using this Form the "Instructions issued for the guidance of Medical Officers serving on Medical Boards" issued by the B.P.C. and instructions issued by Militia H.Q., Ottawa, will be carefully followed.
- The Medical Officer in charge of the case is responsible for the proper completion of Sections 1 to 10 of this Form and will obtain the signature of the invalid to the "Statement," page 3. The President of the Board of Medical Officers is responsible for the proper completion of sections reserved for recording the "Opinion of the Medical Board."
- In answering the questions, Medical Officers will carefully obtain and record the invalid's statements concerning his condition. They will distinguish observations made by themselves from hearsay. They will distinctly state the authority for statements not resulting from their personal observation; it must be made clear whether such statements are obtained from the invalid concerned, from witnesses, or from documents, Regimental or otherwise.
- Special care is required in answering question 9. Read the questions carefully. All questions must be answered.
- If space provided under any section is insufficient add another sheet. Such sheets must be initialed by the Medical Board.
- A note will be made of attached papers by the Medical Board under the section "Opinion of Medical Board."
- Under no circumstances may information other than that in sections 7, 8, 9 and 10 be communicated to the invalid, directly or indirectly.
- The nomenclature of diseases must be followed, if possible, as described in "List of Diseases" printed in the order in which they appear in the Annual Report on the Health of the Army, published in London (1915), by Messrs. Harrison & Sons.

9. Present condition—(a) (Before completing this section the invalid should be stripped, and subjected to a thorough physical examination. Important, to be a full description of the present disabling condition, or conditions only. "History" must be recorded in Section 10. Describe all abnormalities, anatomical and functional, contributing to present disability; objective findings to be stated first, then subjective findings.)

Objective

Yes. This arm resulted in a compound fracture of the humerus—a section of the ulnar nerve and an injury to the musculospiral nerve. The humerus is soundly healed in good position. The injury to the musculospiral is partial. He can extend his wrist. By means of radial extension he can not flex his thumb or fingers. The paralysis of the ulnar supply is complete with the exception of the 1st and 2nd dorsal interossei which appear to have an abnormal supply. Muscle reaction attached.

(b) Has the invalid now any affection of the following systems, not described in Section 9 (a) above? (Answer Yes or No.—if the answer to any part is Yes, give a brief description of the present condition.)

12. Was the disability caused, or aggravated; (a) by intemperance, or improper conduct; or (b) by unreasonable refusal to accept treatment? 1-2-3. No. 4. Refusal treatment is not unreasonable.

The regimental documents will be referred to.

(If the answer is in the affirmative, state in percentages, to what extent the patient is incapacitated by that causation or aggravation. In answering this question, conduct sheets should be considered. If treatment has been refused, the circumstances surrounding the refusal should be described on page 4.)

13. What is the probable duration, in months, of the disability or of each of the disabling conditions, if there is more than one? 1. Permanent 2. 6 mos. 3. Permanent 4. Permanent without operation.

14. Treatment (Case reports, general or special, should be secured and attached where possible.)

NOTE.—By Active Service is meant Service with the Colours in Canada, United Kingdom, or elsewhere during the present war (since August 4th, 1914).

3. Is the disability due to disease contracted or injuries received prior to Active Service?
- (i.) As to Group (a) above? no If yes, has Active Service aggravated it? no
 - (ii.) As to Group (b) above? If yes, has Active Service aggravated it?
 - (iii.) As to Group (c) above? If yes, has Active Service aggravated it?
4. Is the disability due to disease contracted or injuries received while on Active Service— yes
- (i.) As to Group (a) above? yes
 - (ii.) As to Group (b) above?
 - (iii.) As to Group (c) above?

5. If a cause of disability was an injury received on Active Service, was it received—

- (i) While on duty? *yes*
- (ii) While off duty? *no*
- (iii) Was a Court of Inquiry held? *no*
- (iv) Where? *no*
