Nov 15 <sup>th</sup>	History - Entered in Canada Nov 1 <sup>st</sup> 1915. Arrived in England Aug 1 <sup>st</sup> 1916.			
	About Oct 1 <sup>st</sup> 1915 began to complain of pain, mostly at night after his day work was over, over shin bone and ankle joint of left leg. The pain was sharp and aching in character and appeared to be deeper rather than superficial. In the mornings when going to his work, on a delivery team, his left leg was stiff, and he always felt a 'drawing pain' up the shin bone, and stiffness of ankle joint. No history of injury.			
	Two weeks after pain began he consulted a doctor who gave him medicine and advised rest.			
	After resting for a few days he returned to his work without, and about a week later subsided.			
	After doing drill it became more painful and he was unable to carry on so was transferred to hospital duty. The symptoms became aggravated by wearing puttees and a month after subsiding noticed swelling on <sup>middle</sup> upper third anti surface shin.			
	He kept carrying on but suffering pain until he came to B.M.H.			
	Examination - There is an elevated painful area <sup>2" x 5"</sup> on pressure on <sup>middle</sup> upper third anti internal surface tibia. There is also and this smaller area, about size of rosent piece, 3" above ankle joint on anti edge of tibia which came there recently.			
	He sleeps early part quiet, but latter part cannot on account of pain, waking up suddenly. Since about <sup>Oct 1<sup>st</sup> 1916</sup>

Statement of Case.

Note.—The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

9. Date of origin of disability. October 1915.

10. Place of origin of disability. Lindsay, Ontario.

11. Give concisely the essential facts of the history of the disability, noting entries on the Medical History Sheet bearing on the case. About October 1<sup>st</sup> 1915. began to complain of pain, mostly at night after his day's work, over antero-internal surface tibia left leg, followed six months later by pain in same ankle-joint. The pain was sharp and aching in character and was deep rather than superficial. In the morning, when going to his work his left leg ~~was~~ always stiff and the movements of his ankle joint had a constricted feeling. He was advised rest by a physician and he did so with no improvement in condition. On Nov 1<sup>st</sup> he enlisted and the condition was aggravated by wearing puttees, doing drill and going on route marches. About Oct. 21<sup>st</sup> he noticed a swelling over corresponding surface of right tibia. Previous to this he complained of pain over same area right tibia for several months. He sleeps first part quiet, but wakes up suddenly during latter part quiet with pain in both shin bones. There is no history of injury. All members of family living, and well except two brothers who died in infancy. One he says of water on the brain.

*There is an elevated painful area, 2" x 5", over upper half antero' internal surface both tibia. There is also an elevated area 1 1/2 x 1 1/2, three inches above ankle joint on external border tibia left leg. Pressure gives pain over these areas. There is outward curvature of both tibia. He has a limping gait caused mostly by pain near epiphyseal line left tibia.*

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as it is essential that the Members of the Pensions and Claims Board should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pensions vary according to whether the disability is attributed to wounds or injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Article 591 to 598 of the Canadian Pay and Allowance Regulations as amended G.O., 57, May 1st, 1915).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

20. (a) State whether the disability is the result of injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service.

(1) no  
(2) no

(b) If due to one of these causes, to what specific condition do the Board attribute it?

not applicable

21. Has the disability been aggravated by

(a) Intemperance? no  
(b) Misconduct? no

22. Is the disability permanent? no

23. If not permanent, what is its probable minimum duration? six months

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present? Total.

In defining the extent of his inability to earn a livelihood, estimate it at  $\frac{1}{4}$ ,  $\frac{1}{2}$ ,  $\frac{3}{4}$ , or total incapacity.

25. If an operation was advised and declined, was the refusal unreasonable? not applicable

26. Do the Board recommend

(a) Fit for duty? no  
(b) Fit for light duty? no  
(c) Invalided to Canada? yes  
(d) Discharge as permanently unfit? no
