Should any of the documents be missing, an explanation of the deficiency, signed by the commanding officer, must be substituted for the missing document. The officer in charge of records will then extract from the original attestation, any documents required to complete the list of discharge documents enumerated in the margin, which will then be placed in this form in the sequence given.

2. When men are discharged from the colours at home as medically unfit, or with claims for pension, Army Form B. 268 will be sent confirmed, together with the duplicate attestation and documents retained therein to the officer in charge of records 10 days in advance of the date for discharge in the case of invalids, and 14 days in other cases. This officer will then extract from the original attestation any documents required to complete the list of discharge documents enumerated in the margin, place them in this form, and after carefully checking the duplicate attestation with the original forward the whole to the Secretary, Royal Hospital, Chelsea. When such men are discharged abroad, the same procedure will be adopted as above, with the exception that the discharge documents will be sent to the officer in charge of records immediately after discharge takes place (except in the case of men who are granted gratuities on discharge from local battalions or companies, Royal Artillery).

3. When soldiers are sent home from abroad for discharge, the documents retained with the duplicate attestation will be placed inside this form and sent home with the men for transmission to the officer who carries out the discharge, together with the following additional forms:—

- (b) Character Certificate (Army Form B. 2067) if entitled.
- (c) Copy company conduct sheet (Army Form B. 121) when required under King's Regulations.

The duplicate attestation and documents retained therein will be sent to the officer in charge of records, who will extract from the original attestation any documents required to complete the list of discharge documents enumerated in the margin and place them in this form.

4. The discharge documents of re-enlisted pensioners, on re-discharge, will be sent to the officer in charge of records, who will extract from the original attestation any documents required to complete the list of discharge documents enumerated in the margin, place them inside this form, and forward the whole to the Secretary, Royal Hospital, Chelsea, irrespective of the cause of discharge.

5. The original and duplicate attestations of recruits who are rejected before, or on, final approval will be retained by the approving officer for one year, when they will be destroyed.

6. In all other cases the discharge documents will be sent, directly the discharge is carried out, to the officer in charge of records of the unit concerned.

7. Postage need not be paid, and receipts are not required, in the case of documents sent to Chelsea or to the War Office,

Should any document be missing, he must at once apply for it.

9. The officers having final charge of the discharge documents will arrange them according to regimental numbers, and enter the names in the alphabetical index, Army Book No. 129.

Medical Report.

The answers to the questions below are to be filled in by the Officer in medical charge of the case. He will carefully discriminate between the soldier's unsupported statements and the evidence as recorded in the medical or other military documents bearing on the case. He will plainly state the existence of any of the disability prior to the soldier joining for the present war.

1. DISABILITY (State the actual disabling conditions as distinguished from the diseases or injuries from which they resulted). (Follow the official nomenclature as far as possible.)

Group the disabilities, placing those resulting from separate causes in separate groups.

- Disabilities Group (a) IMPAIRED FUNCTION Right Leg
- Disabilities Group (b)
- Disabilities Group (c)

2. CAUSE OF DISABILITY. (Follow the official nomenclature in stating the disease or injury.)

	Disease or injury to which the disability is due.	Place of origin.	Date of origin.
(i.) As to Group (a) above.	<u>Compd - comminuted fracture of femur</u>	<u>Vimy Ridge</u>	<u>Dec 26/16</u>
(ii.) As to Group (b) above.			
(iii.) As to Group (c) above.			

NOTE.—By Active Service is meant Service with the Colours in Canada, United Kingdom, or elsewhere during the present war (since August 4th, 1914).

was wounded in action on Dec 26th 1916 by fragment of shell metal which inflicted a compound comminuted fracture of the right femur, and flesh wounds of both arms. The wounds on the arm soon healed and arms both have normal function. The right thigh had to be amputated at Camp Hospital where a fragment of metal was removed. The wound still showed signs of severe infection and at No 3 Southern General Hospital, the leg was freed by two longitudinal incision on either side of leg and dead bone removed and wound filled with S.S.P. from this recovery was uninterupted and wound is now healing.

7. PRESENT CONDITION. (Give previous and present weight if likely to indicate progress of disability.)

Both arms have normal function. The right leg is still of little use to him. There is no shorting but bone shows necrosis and although the wound on the inner side of leg has healed the wound on outer side still has a discharging sinus about its middle portion. Leg is thigh is much smaller and he cannot walk without use of stick.
